(\*\*\*)For all technical and dress rehearsals, it is more important to be on time than to have perfect hair and make-up. If time between school and rehearsal is very short, I would simply plan a time at home before performances to practice the show hair and make-up.)

### Strike - Post Performance

Strike, the process of dismantling the show and restoring the performance space, is mandatory for all participants in grades 6-12 and will take place immediately after the final performance. Actors in grades 3-5 are asked to pack their belongings and exit the theater promptly following the final performance. While parents are not required to assist with strike, many hands make light work, and actors will not be dismissed until the director clears them once the task is completed. Please feel free to sign up on the parent volunteer form or let me know if there is a particular area where you would be interested in helping.
